	Color	Ocean Teal	
	Package	No wrap	
	Net weight	17.63 oz	
	Gross weight	19.86 oz	
	Master case	8pk	

All the benefits of plastic. None of the harm.

Our straws are only made with PHA. Because PHA comes from nature, it's able to return to nature seamlessly when exposed to compost beds, soil, and marine sediments. And although our straws are marine biodegradable, please dispose of them responsibly by throwing them in a compost or waste bin.
